Evaluation of Manufacturing Modernization: Index of Workshop Papers, 1993-1997

This appendix provides an index to papers presented at the four workshops on the manufacturing modernization held in Atlanta between 1993 and 1997. These papers are collected in the following volumes:

- *Evaluating Industrial Modernization Programs: Issues, Practices, and Strategies.* Philip Shapira, Jan Youtie and J. David Roessner, editors. School of Public Policy and Economic Development Institute, Georgia Institute of Technology, Atlanta, 1994. [Edited collection of papers from the 1993 workshop.]
- *Evaluating Industrial Modernization: Methods and Results in the Evaluation of Industrial Modernization Programs.* Philip Shapira and Jan Youtie, editors. School of Public Policy and Economic Development Institute, Georgia Institute of Technology, Atlanta, 1995. [Edited collection of papers from the 1994 workshop.]
- *Manufacturing Modernization: Learning from Evaluation Practices and Results.* Philip Shapira and Jan Youtie, editors. School of Public Policy and Economic Development Institute, Georgia Institute of Technology, Atlanta, 1997. [Edited collection of papers from the 1996 workshop.]
- *Manufacturing Modernization: Implications of Evaluation Results for Program Improvement and Policy Development.* Philip Shapira and Jan Youtie, editors. School of Public Policy and Economic Development Institute, Georgia Institute of Technology, Atlanta, 1998. [Edited collection of papers from the 1997 workshop.]

References to the papers in these volumes have been organized by title and author. After each entry, there is a reference which indicates the volume publication year (94, 95, 97 or 98) and the page numbers for the paper.

Electronic copies of all papers can be downloaded via the worldwide web at

<http://www.cherry.gatech.edu/workshop>.

Index of Workshop Papers, by Title

- A Business Perspective on Evaluating Industrial Modernization Programs. Edmund J. Farrell - **94**:55-59
- An Evaluation of Networks and Group Services for Small Firms. Edward J. Malecki and Deborah M. Tootle - **95**:128-143.
- Assessing the Quality of Services in Industrial Modernization Programs. Eric Oldsman - **94**:29-36
- Current Practices in the Evaluation of Industrial Extension Programs. Philip Shapira, Jan Youtie and J. David Roessner - **94**:1-17
- Customer-Based Extension Center Metrics. David H. Taylor - **94**:37-41
- Discussing Evaluation in a World of Discursive Standards: Assessing the NIST Centers. Charles F. Sabel - **95**:6-15
- Do Manufacturing Extension Programs Matter? Eric Oldsman - **95**:18-48
- Establishing System-Wide Evaluations: Program-Centered Evaluation and The National Science Foundation's Industry-University Cooperative Research Centers. Denis O. Gray - **97**:241-250.
- Estimating the Spillover Benefits of Industrial Extension Programs. John Nelson and Irwin Feller - **97**:199-222.
- Evaluating Industrial Modernization: Methods, Results, and Insights from the Georgia Manufacturing Extension Alliance. Phillip Shapira and Jan Youtie- **98**: 29-46
- Evaluating MEC's: Benchmarking With Ourselves. Tab Wilkins- **98**: 83-90
- Evaluating the Impact of Manufacturing Extension Programs on their Customers: Lessons from and MTC. Dan Luria and Edie Wiarda - **95**:49-63
- Evaluating the Impact of Networking and Group Services. Stuart A. Rosenfeld - **94**:68-72
- Evaluation Approach for the Arkansas Pilot Rural Enterprise Center. David A. Swanson, John Opitz, Clayton Franklin, Sandra Miller, and Floyd Fenix - **95**:114-119.
- Evaluation of Industrial Modernization Programs: The Field Agent's Perspective. Robert W. Springfield - **94**:63-67
- Evaluation of the Appalachian Regional Commission Industrial Competitiveness Demonstration Projects. Melvin M. Mark, Irwin Feller, and Amy Glasmeier - **95**:144-150.
- Evaluation of the Iowa Heartland Technology Network. John C. Dugger, Janet D. Sweeney, Christine Sorensen, **95**:64-72
- Evaluation of Iowa State University's Center for Advanced Technology Development: Executive Summary. David Roessner, Yong Lee, Philip Shapira, and Barry Bozeman - **97**:181-198.
- Evaluation of Massachusetts Manufacturing Partnership: Selected Findings. Steven Ellis- **98**: 47-76
- Exploring "Taxpayer-Payback Evaluation" of Manufacturing Extension: The Wisconsin Model. Chris Thompson - **97**:35-56.
- Firm Performance and Evolution: Empirical Regularities in the U.S. Microdata. J. Bradford Jensen and Robert H. McGuckin - **97**:77-98.

-
- GAO Perspectives in Evaluating Federal Technology-Related Programs. Lowell Mininger - **94**:77-87
- Georgia Manufacturing Extension Alliance: Overview of the Evaluation Plan. Philip Shapira and Jan Youtie - **95**:87-96.
- How the Chicago Manufacturing Center Uses Evaluation in Decision Making. Natalie Davila – **98**: 141-148
- Integrating Strategy and Evaluation: A Brief Essay on the Manufacturing Extension Partnership. Eric Oldsman and Dan Luria- **98**: 3-8
- Inter-firm Collaboration as a Modernization Strategy : A Survey of Case Studies. Gordon Kingsley and Hans K. Klein- **98**: 99-112
- Institutional Assessment of Technology Programs. Andrew D. Reamer - **95**:122-127.
- Issues in the Evaluation of Technology Modernization Programs. Irwin Feller - **94**:18-25
- Lessons from the Evaluation of the Small Business Development Center Program. Elizabeth J. Gatewood - **94**:73-78
- Manufacturing Extension and Productivity Dynamics: Preliminary Evidence. Ron Jarmin- **98**: 15-28
- Manufacturing Partnerships: Evaluation in the Context of Government Reform. Philip Shapira, Gordon Kingsley, and Jan Youtie - **97**:5-20.
- Matching Evaluation with Industrial Modernization Program Needs, Practices, and Constraints. Del Schuh - **94**:59-62
- Measuring the Impact of the Manufacturing Extension Partnership. Ronald S. Jarmin - **97**:129-154.
- MEP Partnerships and the SBDC Program. Jan Youtie and Philip Shapira- **98**: 91-98
- Metrics for Evaluating the Impact of Industrial Modernization Programs on Their Customers. Dan Luria and Edie Wiarda - **94**:42-48
- NIST/MEP’s Evaluation Activity: The Project Team Component. John Redman - **95**:167-168.
- Output-Based Performance Measures for the North Carolina Alliance for Competitive Technologies. Sheila A. Martin - **95**:97-113.
- Overview of GAO’s Study of Companies Perspective on Manufacturing Extension Program Services. Allan Mendelowitz - **95**:156-158.
- Performance Measurement and the Evaluation of Industrial Modernization Services: A TQM Perspective. William E. Ruxton -**94**:26-28
- Policy to Develop Company Technological Capability: A Learning Perspective. Erik Arnold – **98**: 119-134
- Practices and Performances of Small and Larger US Manufacturers: Issues and Implications. Paul M. Swamidass - **97**:61-76.
- Rapporteur’s Comments. Edward Malecki – **98**: 171-174
- Review of Selected Literature on Evaluating Technology Deployment and Industrial Modernization. Philip Shapira, Jan Youtie and J. David Roessner - **94**:86-108
- Social Welfare Functions in Benefit-Cost Analysis: The ROPI Approach. David Burress - **97**:225-240.
- System-wide Measures of Modernization Success. Jack Russell - **95**:159-164.

The Impact of the New York Manufacturing Extension Program: A Quasi-Experiment. Eric S. Oldsman and Christopher R. Heye - **97**:155-166.

Western New York MTC uses Evaluative Information for Continuous Improvement. Robert J. Martin - **98**: 149-152

The Importance of Manufacturing Extension - A State Perspective. Susan Rhoades - **97**:29-34.

The Influence of Evaluation on Technology Policy-Making and Program Justification: A State Level Perspective. Rick Carlisle - **97**:119-126.

The MEP Evaluation Approach: Past, Present, and Future. David W. Sears and Phillip Blackerby - **98**: 161-170

The Monitoring-Evaluation-Research Continuum: Insights from the Massachusetts Manufacturing Partnership. Eric S. Heller - **95**:78-86

The Value of Evaluation: Uses, Strengths, and Weaknesses. Mark Tebbano - **95**:73-75.

The Value of Manufacturing Extension Programs in America. Matt Kane with Dan Luria, Jack Russell, and Chris Heye - **97**:21-28.

Toward a Cross-Case Analysis of Outcomes of Exemplary Engagements by MEP Centers. Jan Youtie - **97**:167-178.

Toward Lean or Rich? What Performance Benchmarking Tells Us About SME Performance, and Some Implications for Extension Center Services and Mission. Daniel Luria - **97**:99-114.

Use of External Review Panels in Evaluation Manufacturing Technology Programs. H. Lee Martin - **95**:153-155.

Using Customer-Based Assessment to Evaluate Industrial Extension Programs. Gene R. Simons - **94**:49-54
